TOOK CHILD FROM BURNING BEDROOM

Daughter of Herman Kane, of West Middle Street, and Grand-Daughter of John D. Kane, Saved from Death by Mother's Quick Action.

Asleep in a burning bed in a Frederick boarding house four-year-old Frances Kane, daughter of Herman Kane, and grand-daughter of John D. Kane, both of 119 West Middle street, Gettysburg, was saved from death or serious injury by her mother, Mrs. Agnes Kane, who, heedful of harm to herself, dashed into the room and carried the child to safety. The fire is believed to have been caused by matches left on the bed by Frances when she fell asleep. How she obtained possession of them is a mystery.

Quick action on the part of neighbors, led by Albert Schroeder, prevented the blaze from spreading further than the bed room, situated in the rear of the second floor. The damage probably will amount to about \$100. Neither mother nor child suffered any ill effects as the result of the fire.

A number of persons were in the frame house at the time of the fire. Frances Kane had been slightly ill and her mother had insisted on her staying in the bed room. Mrs. Kane had left her there and had gone downstairs. Some time later the mother, smelling smoke, traced it to the child's room, and, opening the door, was horrified to find the room filled with fire and smoke. Without hesitating, she dashed into the room, picked up her daughter from the burning bed and hurried to safety, choking and almost suffocated by the dense smoke caused by a burning mattress.

Albert Schroeder, who lives next door, hearing the commotion, investigated, and from the rear of the building saw the flames. Picking up a bucket of water as he ran, he dashed into the house. Several other men arrived about the same time and leading them to the burning room he threw water on the flames, which were soon subdued.

One of the Frederick fire companies responded to an alarm but their services were not required.

ANOTHER DOG KILLED

Rabies Makes Necessary the Shooting of Tipton Collie.

The collie dog belonging to R. Lee Tipton, which has been a familiar sight on the streets of town for several years, was shot this morning by C. Bernard Hoffman when it showed signs of rabies. The dog is said to have been in one of the fights started by the now famous Stroup dog which caused the principal disturbance several weeks ago. Since that time the Tipton collie was locked in a corner and kept under observation. This morning indications of rabies appeared and the dog was quickly killed.

EXPECT BIG CROP

Largest Peach Yield in Years in Washington County.

"With favorable weather for the next month or two, Washington county will have one of the largest peach crops in its history," says D. L. Davidson, Hagerstown. "So far the trees are in fine condition with every indication of a bumper yield."

Mr. Davidson has been in Hancock district for some time trimming and pruning trees in some of the large orchards in that section.

COMING EAST

Former Arendtsville Man will be Buried in that Place.

The body of Willis Wagner who, it was incorrectly reported, was buried at Los Angeles, will be brought to Arendtsville for interment. Word has been received by relatives there of its shipment and it is expected to arrive either Sunday or Monday.

MRS. PARSELS' DATES

Change in Engagements of Temperance Worker.

Mrs. Parsels will lecture in the Reformed church, Arendtsville, Rev. T. C. Hesson pastor, Saturday evening at 7:30 o'clock and in the Lutheran church, Bendersville, Rev. Joseph Arnold, pastor, Sunday evening.

MANY OFFICES TO BE FILLED

And Candidates are Beginning to Appear. Mr. Butt Prominently Mentioned as Democratic Candidate for Judge. Other Offices.

Interest in the coming elections of next fall, when more county offices will be filled than for many years, is becoming more keen daily and numerous candidates are expected to announce themselves within the next few weeks. Special interest is taken in the judicial campaign and the probable aspirants for the president judgeship.

It is reported that a majority of the Democratic members of the Adams County Bar have signed a petition requesting J. L. Butt Esq. to announce himself as a candidate for the office, but as yet Mr. Butt has not declared himself an aspirant for that position. Donald P. McPherson, Esq., is most prominently mentioned as the likely Republican candidate with a possibility that Judge Swope may seek re-election.

For district attorney, it is said that Raymond F. Topper Esq. will receive the support of the Republican party while several Democrats are mentioned. Here, too, there have been no formal declarations.

For the other offices to be filled there are sure to be a large number of candidates, and some announcements have already been published for the numerous county positions of trust, so that when the primaries campaign actually opens one of the most lively fights in years may be expected.

At the head of the list of offices to be filled are the following:

President Judge of the 51st Judicial District composed of counties of Adams and Fulton.

Two associate judges for Adams county.

Sheriff.

District Attorney.

Prothonotary.

Clerk of the Courts.

Register and Recorder.

County Treasurer.

Two County Commissioners.

Two Directors of the Poor.

Two County Auditors.

To these will be added a large number of borough and township offices.

TRONELL FUNERAL

Knights Templar will Conduct Services at House and Cemetery.

Members of Gettysburg Commandery, Knights Templars, No. 79, will meet at the asylum this evening at 7 o'clock and proceed to the home of the deceased Sir Knight C. Wm. Tronell to hold services.

The funeral will be held at the house Thursday at 2 p. m. with services conducted by Gettysburg Commandery Knights Templar. Interment in Evergreen Cemetery.

LAST MEETING

Public Invited to Service in Methodist Church.

The last prayer meeting of the present Conference year will be held in the lecture room of the Methodist church at 7:30 this evening. It will be open to the public. The service will be evangelistic in character and at its close Dr. Oyler desires to meet the class of new members recently received.

MARRIAGE LICENSE

Permit to Wed Issued at Local Office.

Clerk of the Courts Olinger has issued a marriage license to William Franklin Haar, of Berwick township, and Miss Jennie Ruth Emlet, of Hamilton township. Mr. Haar is a son of Mr. and Mrs. John Haar, and Miss Emlet is a daughter of Mr. and Mrs. Henry Emlet.

SPECIAL TRAIN

Prepare to Put Employees in Spring Uniforms.

A special train was run over the Philadelphia and Reading railroad today for the purpose of inspecting uniforms and taking measures for new ones.

JUST received at Wolf's Warehouse carload of yellow ear corn. 85 cents off the car.—advertisement

GETTYSBURGIANS NOW IN GERMANY

Mrs. Frances Walter Tells of Making Clothing for German Soldiers. Feed Several Hundred Poor People Daily. Daughter there also.

Mrs. Frances H. Walter, of Gettysburg, who with her daughter, Miss Cornelia Walter, is in Berlin, Germany, has written interestingly to her friends in this place of conditions in that city. In one of her letters she says:

"We are busy as can be, trying to help all we can in this sad time. There are between thirty and forty American ladies who sew every morning from ten to one for the soldiers—making shirts, drawers, chest and back protectors, and some knitting stockings, scarfs, stomach bands, pulse warmers, and caps. I go to the hotel (where we have our meetings) three mornings a week, and give another day to sewing for the poor."

"I am so glad to help a little in this time of so much suffering. I have knitted many articles and have now eighteen soldiers in whom I feel a personal interest because they wear the things I have made. The American ladies have a kitchen where we give dinners every day to two hundred poor people. We serve in committees of eight a week at a time. Neil and I were both on Christmas week, we were glad to have something to do for others on Christmas day—it is always rather a lonely time away from one's own people."

Mrs. Walter asks to be remembered to her Gettysburg friends. In her letter she mentions the fact that all mail has to be sent unsealed and that one letter she sent to America had never reached its destination.

HINKLE WANTS LICENSE

Philadelphia Newspaper Man Asks for Hotel at Littlestown.

Hugh C. Hinkle, former editor of the Littlestown "Jeffersonian", and at present state editor of the "Philadelphia Inquirer", has made application for the transfer of the license of the Hotel Willard, Littlestown, from John D. Mayer, his step-father. Mrs. Mayer owns the hotel. The license of this hotel was granted conditionally by the Adams County Court, charges having been made that gambling was carried on at the place on Sunday. The Court stated that the license would be revoked if the charges were found to be true. The case is still pending.

BADLY INJURED

Skidding Automobile Results Seriously for County Man.

When the automobile which he was driving skidded on a wet street against a curb in York Tuesday afternoon, George Teschop, of East Berlin, was thrown through the windshield and sustained severe injuries to the head. He is at a York hospital. The Kline touring car he was driving is the property of William G. Leas and was considerably damaged.

ASK COUNTY AID

Committee Appears before Meeting of the Commissioners.

A committee of Littlestown citizens appeared before the county commissioners on Tuesday to ask for an 18 foot state-aid highway through their town over Gettysburg and Baltimore streets. The borough would pay for improving the other 24 feet of street width. The matter was taken under consideration.

HAS APPENDICITIS

Physicians Perform Operation on William Epley.

William Epley was operated on this morning at 10:00 o'clock at his home on York street for acute appendicitis by Dr. McCrea Dickson, Dr. J. R. Dickson and Dr. W. E. Wolff, of Arendtsville. He is getting along nicely.

THE Citizens' Trust Company will close at 12:00 o'clock Thursday on account of the funeral of C. W. Troxell.—advertisement

TWO FIRES OVER MARYLAND LINE

Famous Old Structure Near Thurmont is Burned. Mr. Crum Loses Four Hundred Dollars Worth of Meat. Both at Same Time.

Two homes were endangered and damage amounting to \$1,000 was sustained in two fires which broke out simultaneously at "Auburn", the home of Dr. William P. McPherson, near Thurmont, and at the place of Roy Crum, Daysville, about 7 o'clock Monday evening.

The fire at the home of Dr. McPherson consumed a log building formerly occupied as an office, which stood fifteen feet from the house. At the Crum place the smokehouse was destroyed, eighteen hundred pounds of pork, representing the entire output of meat from hogs butchered by Mr. Crum last December, being badly damaged. Mr. Crum is well known in this county.

William McGill, Jr., the small great-grandson of Dr. McPherson, saved the old mansion at "Auburn", which is situated about a half mile from Thurmont on the state road. The blaze originated in the log house standing about fifteen feet from the mansion which had been used by the physician as an office before he retired from practice a number of years ago. During the winter a farm hand had been living in the building. Leaving it at about 6:30 to go to the barn to attend to his duties, he was called a short while later by the McGill boy, who had seen the flames shoot from the building.

The alarm was sounded and neighbors hurried to the scene. It was soon seen that the mansion was endangered, the wind blowing in its direction and carrying showers of sparks. Had the blaze not been discovered as soon as it was, the dwelling undoubtedly would have caught fire. The log office building was completely destroyed. It had stood there for about fifty years and was one of the well-known landmarks in that section. Covered with vines and creepers, it often attracted the attention of tourists passing by.

The Crum smokehouse was completely destroyed. As soon as it could be gotten to, the meat was raked out with pitchforks, hoes and garden rakes. Mr. Crum estimates the damage, including that to the meat, at about \$400. He carries fire insurance.

SALE REPORTS

Prices Realized by Farmers at their Sales.

Levi Fink's sale in Germany township in Tuesday amounted to \$2000. The best horse brought \$130, the best cow \$78, the best brood sow \$30, and shoats \$6. G. R. Thompson was the auctioneer, and Elmer Buckey was the clerk.

J. C. Minter's sale in Franklin township on Tuesday amounted to \$1673.35. The best horse brought \$187, the best cow \$60, shoats from \$5 to \$8, and a pair of black horses \$343. George J. Martz called the sale, and Bream was the clerk.

McCullough and Singley's sale in Hamilton township on Tuesday amounted to \$1050. The best horse brought \$120, and the best cow \$43.50. Corn sold for \$1.00 a bushel. McDermitt and Taylor were the auctioneers, and Spangler and Son the clerks.

CLEARED \$32.50

Local Persons Took Part in Evening at Kirby Home.

The sum of \$32.50 was cleared by the musical at the home of Prof. Richard S. Kirby, Springs avenue, Tuesday evening for the benefit of the Woman's League of the college. The following took part in the program: Gilbert Becker, Ernest Baker, Mrs. J. B. Baker, Mrs. M. K. Eckert, Mrs. Harry Link, Prof. H. R. Shipherd, Miss Peters, Miss Minnie Lohr, and Prof. Kirby.

SPELLING BEE

A spelling bee will be held at Fairplay School at 7:30 this evening. All are invited.

PHOTOPLAY "HEARTS AND FLOWERS"

A five part production with MRS. THOMAS WHIFFEN, the grand old lady of the American Stage.

Tom accidentally pushes his rival in love over the edge of a cliff and thinking he has killed him, escapes to the city where he tries to secure employment. Finally he gets into the office of a stork broker, and later deals in stock himself, losing all he has and all his mother has also.

He gets in with a rich society girl and when his mother comes to the city he is ashamed of her, and places her in a poor tenement. Later this rich society girl accidentally meets his mother, and not knowing who she is takes a liking to her. Only then when he sees his mother in the rich home is he brought face to face with the terrible result of the neglect of his mother.

ALLIES BATTER TURKISH FORTS

More Warships Join the Fleet in Dardanelles.

STRONGHOLDS ARE SILENCED

Two Forts and a Battery Are Destroyed as Work Becomes More Hazardous.

London, March 10.—Reinforcements have arrived in Turkish waters for the mighty Anglo-French fleet under Vice Admiral Sackville Hamilton Carden, which is trying to smash its way through the Dardanelles; according to information received from Athens.

It is reported that the battleships Irresistible and Majestic have joined the international fleet and are now taking part in the terrific cannonade against the Turkish forts on the Dardanelles and the coast of Asia Minor. The Daily Telegraph's Athens correspondent also reports that another super-dreadnought of the Queen Elizabeth type, mounting fifteen-inch guns, has arrived at the straits.

Although official information states that the strong Dardanelles forts of Ruhl-i-Medjidieh Tabia, Hamidieh I and the Mount Dardanus battery had been silenced, it also indicated that the fleet had not been able to penetrate the waterway for sixteen miles, as had been unofficially reported from Athens and Salonika.

Port Soudan's Dard, opposite Mount Dardanus, evidently has not been silenced. There remain on both sides of the narrow waterway some of the most powerful guns in the world, and some of which cannot be attacked by indirect fire.

Vice Admiral Carden announces that practically all the ships which have been actively engaged in the operations have been struck by Turkish projectiles, but the news that none of the warships had been seriously damaged was received with great joy here. The slight damage to the ships and the lightness of the casualties form a remarkable feature of this mighty action in which the cream of the British navy is engaged.

According to an unofficial telegram from Athens, the double bombardment of the Turkish inner forts on the narrow of the Dardanelles has been resumed with renewed vigor, while the East Indies fleet, under Sir Richard Pierce, is standing off Smyrna ready to reopen the bombardment of that city.

Although struck by several Turkish shells, the super-dreadnought Queen Elizabeth, which has been throwing shells twelve miles across the peninsula of Gallipoli from the Gulf of Saros, has not been damaged had enough to cause a cessation of this indirect fire. Some of her crew were wounded, but none was killed outright.

The French warship Suffren has played an important part in the bombardment of the Mount Dardanus batteries, which were cleverly concealed by the Turks. The Turks have proved themselves masters at concealing their batteries, and it has caused the war fleet to expend an enormous amount of ammunition in instances where the fleet commanders were not sure whether a battery had been silenced or was merely shamming silence.

"POISON PEN" AGAIN ACTIVE

Georgetown Suffers After Several Months of Quiet.

Georgetown, Del., March 10.—A "poison pen" writer is doing business in Georgetown again after several months of silence.

Those who are being blackmailed are making complaints. Several families have received anonymous and blackmailing letters, making all sorts of accusations against members of the family or neighbors.

This week two young men were the recipients of such letters, and it is understood that they have employed detectives.

WOMEN LOSE IN DELAWARE

House Defeats Suffrage Amendment by Vote of 22 to 8.

Dover, Del., March 10.—The house defeated the suffrage amendment by a vote of 22 to 8.

Those voting for the bill were Representatives Davis, Dickey, Sausbury, Schwatka, Short, Williams and Speaker Grantland. Six members were absent. The suffragists expected eleven votes.

Frames Market Basket Law.

Harrisburg, Pa., March 10.—A bill which it is said will make a considerable difference in the selling of fruits was introduced in the senate by Senator Clark, of Erie county. It standardizes the containers to be used for vegetables, grapes and fruits. The bill, it is said, is designed to do away with the weighing of certain fruits. It was explained that fruits show variations in weight at different periods of maturity.

Cold Storage Repealer In.

Harrisburg, Pa., March 10.—Senator Clark, of Erie, introduced in the senate a bill repealing the cold storage law of May 16, 1913. Asked why he wanted the law repealed, Senator Clark said: "Because it is a bad law, and in its operation."

Mar. 25—Concert Gettysburg Choral Society.

Mar. 28—Visit Baltimore Wander-lusters to Battleground.

LEFT BUSINESS TO EMPLOYEES

Allentown Merchant and Banker Remembers Faithful Helpers in Will.

Allentown, Pa., March 10.—The will of Thomas J. Koch, merchant and banker, who died last month, was admitted to probate, disposing of an estate valued at upwards of \$800,000.

Liberal provision is made for the wife, whose income is to be the interest on at least half that sum. Careful instructions are given for the continuation of his clothing business, which is to go to six employees—William E. Kuhns, John Ritter and Harry Jordan, one-fourth each; Samuel Kuhns, one-eighth, and Samuel Ritter and Elwood Kuhns, one-sixteenth each.

They are to pay \$150,000 for the store and \$250,000 for the real estate. He gives them ten years to pay. The wife gets his \$60,000 home and contents and bank shares and cash aggregating \$50,000. The rest of his bank shares, worth about \$100,000, are after five years to be sold to his six faithful employees at 75 per cent of the market value they would then command.

JUDGE TO QUIT BENCH UNDER FIRE

Umbel, Once Subject of Impeachment, Gives Up.

Uniontown, Pa., March 10.—Rather than stand the fire of impeachment, Judge Robert E. Umbel, president judge of the common pleas court of Fayette county, has agreed to resign.

The agreement is said to have been made with Horatio S. Dumbauld, who started the impeachment proceedings against Judge Umbel in the last legislature and who threatened to renew the action in the house of representatives this week.

By the terms of the pact, it is said that Judge Umbel will resign in time for the election of his successor at the election in 1917. At that time successors are to be chosen to Judge J. C. Van Swearingen, of the Fayette common pleas bench, and Judge J. C. Work, of the orphans' court bench.

The story of the agreement has not become generally known in Uniontown, but close friends of both Umbel and Dumbauld admit that it is true.

Two years ago Dumbauld presented a petition to the legislature asking for the impeachment of Judge Umbel. Allegations were made at that time that great sums of money had been contributed by the liquor interests of Fayette county in a great slush fund which was used in Judge Umbel's election.

SHOT VISITING SWEETHEART

Canner Accuses Farmer at Whose Home Young Woman Was Staying.

Felton, Del., March 10.—William D. Carpenter, a wealthy Easton, Md., canner, who was shot while seeking an interview with his sweetheart at the home of Charles Stayton, near here, said in the Easton hospital that he intends to prosecute Stayton.

Carpenter said that he would swear out warrants for the arrest of the Felton farmer as soon as he was able to leave the hospital.

Miss Mollie Chairs, of Easton, to see whom the packer motored from Easton to Felton, will go to the hospital to nurse Carpenter. She reached this decision after friends had pleaded in vain for her to remain at the Stayton home.

Stayton refused to explain the charge that he shot Carpenter, but friends assert that Miss Chairs had been sent to his home by relatives in Easton with orders to prevent Carpenter from seeing her.

G. O. P. Gains in Maine.

Portland, Me., March 10.—The Republicans made gains at the elections held in five cities—Augusta, Belfast, Bangor, Brewer and Biddeford. In Augusta they swung into power for the first time in five years, electing Mayor Blaine S. Willis and fourteen out of the twenty-four members of the city government. In Belfast the Republicans were successful for the first time in nine years, Charles R. Coombs being elected mayor.

Frozen to Death on Porch.

Seranton, Pa., March 10.—John Daban, fifty years old, homeless, was found frozen to death on the porch of the residence of John Wytko, in Archbald.

WAR FEVER IN BALKAN STATES

Crisis in Bulgaria Over Peace or Strife.

GREECE IS UNCERTAIN

Italy is Also on the Eve of "Great and Decisive Events," Her Premier Declares.

London, March 10.—The success of the allied fleet against the Dardanelles forts is having a marked influence on the Balkan states and active steps to participate in the war now seem to be nearer.

If the Turk is driven from Europe, each country seems anxious to get a slice of the land which he leaves behind.

Bulgaria, considered the least likely of any of the Balkan nations now at peace to join the allies, is confronting an internal crisis over the question of peace or war.

Reports reaching Paris state that Premier Radoslavoff has been overthrown by the influence of King Ferdinand because he desired immediate action against Turkey. The plan of the premier and his followers as this outlined was to occupy Adrianople, provided Greece threw in her lot with the Triple Entente.

The course to be followed by Greece is still to be determined, although King Constantine, in his opposition to war, is said to have the support of the general staff. The main argument advanced against joining with the allies is that an attack on Constantinople would weaken the military strength of Greece along the border of Bulgaria, which would be regarded as dangerous, in view of the relations of the two countries.

M. Zaimis, requested by King Constantine to form a cabinet, has declined, and a member of the chamber of deputies, M. Gounaris, has undertaken the task.

Although there is no direct evidence that Italy will depart from her policy of armed neutrality, Rome dispatches express the belief that the nation is on the eve of "great and decisive events." Premier Salandra is quoted as saying that "Italians will see the destiny of their country accomplished."

Signs of unrest continue in Rumania. Although the government is adhering to its policy of neutrality, the senate has passed a bill empowering the government to proclaim martial law whenever it deems such a measure necessary.

TOY FACTORY DESTROYED

Shimerville Visited by \$120,000 Fire.

South Bethlehem, Pa., March 10.—Shimerville, part of which has just been purchased by Charles M. Schwab in order to obtain land to extend his Bethlehem Steel company plant, was visited by a disastrous fire which practically destroyed the William Shimer Sons & Co. iron toy foundry. The value of the building burned is \$120,000.

Foreman Harry Misch and Harry Palmer were seriously burned when combustion blew open the doors of the jannapping ovens and flames enveloped them. The departments burned were the molding, jannapping, packing, assembling and offices.

ROADS MUST STATE WORTH

Ordered to Aid in Federal Task of Fixing Valuations.

Washington, March 10.—Railroads were directed by the interstate commerce commission to submit information desired in connection with the valuation of the roads.

The statements wanted include: Maps and reports showing industrial tracks operated or owned, wholly or in part, by the railroad; and full information relative to agreements with special industries for such industrial tracks.

Complete inventories of all kinds of property and buildings, signals and telegraph and telephone lines, electrical apparatus and all fixed property except lands and equipment, not heretofore filed with the commission.

Bank Official Ends Life.

Clearefield, Pa., March 10.—Walter L. McKinlin, assistant cashier at the Clearfield National bank, shot and killed himself in his room at the Diamond hotel here. For some time McKinlin has been despondent because of ill health. According to his friends he has been subject to attacks of melancholia.

Fire Destroys Valuable Library.

State College, Pa., March 10.—The residence and valuable library of A. H. Espenshade, registrar of the Pennsylvania State college, was destroyed by fire. Sparks from a chimney ignited the shingle roof. The loss is \$10,000.

South Angers Britons.

London, March 10.—The Council of the Corporation of Foreign Bondholders, in its annual report, again attacks the nine southern states of the United States which repudiated their bonds after the Civil War, and classifies them with Mexico.

WOOLEN WEEK IN GERMANY

FULL CREW REPEAL NOW BEFORE HOUSE

Bill Places Regulating Power in Service Commission.

Harrisburg, Pa., March 10.—A full crew law repealer was presented in the house by Mr. Baldwin, of Delaware county.

The bill gives the public service commission authority to stipulate how trains shall be manned. The commission is authorized, after a hearing, to require any railroad to employ a sufficient and adequate number of men on its trains.

Mr. Baldwin issued a statement, in which he said that the legislature "is strongly favorable to the suggested change," and that "there will be very little opposition to its passage." But it was pointed out by powerful organization leaders that the fight over this legislation will probably be as bitter as that over local option.

The Republican state organization, it was authoritatively stated, is on record as opposed to the repealer, and the big leaders said that a statement issued by President Rea, of the Pennsylvania railroad, last summer, has resulted in setting a majority of the legislators against a repeal of the act.

Peculiarly enough, Baldwin is regarded in the house as the Penrose whip. The fact that Baldwin offered the repealer was thought by some to be an assurance that the Republican state organization would back it and pass it.

GREECE BUYS U. S. WHEAT

Hellenic Government Purchases 25,000 to 40,000 Tons Monthly.

Washington, March 10.—With the Russian wheat supply cut off by the closing of the Dardanelles to merchant ships, Greece has now turned to the United States for her supply of the cereal.

Greece is now buying from this country from 25,000 to 40,000 tons of wheat a month, according to American Consul General Alexander W. Weddell at Athens.

The Hellenic government has taken this step with a view to keeping the food prices down and checking speculation in food stuffs. In purchasing American wheat the government is acting through the National Bank of Greece, which in turn distributes it to the millers at the lowest possible prices.

Four Steamers Fast in Ice Pack.

St. Johns, March 10.—Four sailing steamers, the Terra Nova, Viking, Erik and Diana, which sailed for the Gulf of St. Lawrence, were caught in an ice pack not far from port, and were reported to be in danger of being driven ashore in a threatening blizzard. The four steamers have a total of 676 men on board.

Opium in Potato Smuggling Plan.

New York, March 10.—An indictment returned by the federal grand jury against Hugo Grobe, recently released from the federal penitentiary at Atlanta, charges that while a prisoner there he was engaged in perfecting a scheme for smuggling opium from Germany, concealed in rifle cartridges and potatoes.

PERSONAL NOTES AND BRIEF ITEMS

Paragraphs of News Telling of the Happenings in and about Town People Visiting Here and Those Sojourning Elsewhere.

Mrs. E. A. Weaver and Miss Lily Dougherty, of West High street, are spending the day with friends in York.

C. W. Stoner Esq., of Baltimore street, made a business trip to York today.

Mr. and Mrs. J. H. Beck, of Round Top, and daughter, Miss Ivy Beck, have gone to visit at the home of Mr. and Mrs. George Beck, at Mt. Carmel.

Mr. and Mrs. Willis Lady and family have moved from the house of Michael Orner, on York street to Biglerville.

Mrs. John Toddes, of South Washington street, and Mrs. John N. Weaver, of Carlisle street, have gone to Altoona where they will attend the funeral of Mrs. Toddes' sister.

Mr. and Mrs. S. G. Bigham, of Biglerville, were visitors in Gettysburg today.

Mrs. Virgie Wolf is visiting friends at West Chester for several days.

Mr. and Mrs. William C. Tyson have returned to their home at Guernsey after spending several months in Peoria, Illinois.

Bishop Albert Hollinger is spending several days in Philadelphia on business.

Mrs. Harry Jacoby, of Stratton street, is the guest of friends in Harrisburg for several days.

Edward M. Bender, of Carlisle street, has returned home after a month spent at Southern Pines, North Carolina.

Louis Engel spent Tuesday with friends in Baltimore.

Hibernation.

All sleep is phenomenal, but the sleep which endures the winter through with some warm-blooded animals which find themselves suddenly surrounded by frigid weather, and when all functions that make for the best of life are as if they had never been, is most curious. While it is mainly explicable it is none the less astonishing.

Kerosene Found Effective.

Investigations have been carried on to discover remedies for insects which damage such forest products as telegraph poles, railroad ties and tool handles. With hardwood products liable to attack by the so-called powderpost beetles it has been found that kerosene and linseed oil are effective repellents against these insects.

Earth's Diameter.

The earth's greatest diameter is not necessarily at the equator. According to the eminent Professor Henkey, the actual greatest diameter is that taken from the summit of Mount Chimborazo. The line drawn from this point to the opposite side on a point in Sumatra gives a diameter of 7,929 miles.

An Englishwoman "Soldier."

The most famous Englishwoman "soldier" was Dr. James Barry, who joined the medical corps in 1813 and served at Waterloo and in Crimea. In 1858, after many promotions, she became inspector general, and it was not until many years later that the fact that she was a woman was discovered.

Real Lords of the Earth.

He only is advancing in life whose heart is getting softer, whose blood warmer, whose brain quicker, and whose spirit is entering into living places. And the men who have this life in them are the true lords and kings of the earth—they and they only.—John Ruskin.

It Vanished.

"Now," said the great magician, rolling up his sleeves to show that he had no concealed mechanism to deceive the eye, "I shall attempt my never-failing experiment." Taking from his pocket a five-dollar bill, he said: "I shall cause this bill to disappear utterly." So saying, he lent it to a friend.

Revenge.

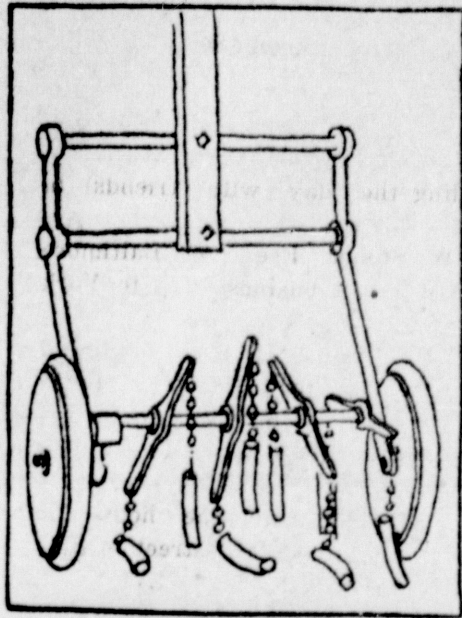

"How is it that you have been to the library so often this week?" inquired the boy's mother. "Throb books you have had, and not read one." "I know that," replied the youngster, "but they fined me five cents last week for keeping a book out over time, and I got to make 'em earn it."

(Copyright, by McClure Syndicate.)

HELPFUL HINTS FOR HOUSEWIVES

Machine That Beats Dust
Out of Carpets.

The efficacy of the good old method of a vigorous application of elbow grease to the carpet has never been questioned, but it was gradually discarded for easier methods. Various machines for brushing the dirt out of the carpet or driving it out in a jet of air have almost entirely supplanted the harder method of beating it with sticks, but just as this stage of the development an invention goes right back to first principles and invents a machine by which the carpet is beaten in the good old fashioned way without the usual expenditure of energy. The carpet is taken out in the open air and stretched on the ground and the machine pushed back and forth over it and a series of beaters are whirled vigorously around, coming in contact with the carpet. At every step of the operator forty blows are delivered.

Browned Potatoes.

Cook medium sized, unpeeled potatoes until nearly done; peel, drop into salted boiling salad oil and treat as when frying cutters, turning until brown and done. They turn a delicate color when first immersed and are taken out with a perforated ladle that drains the oil, and what is left can be used again for the same purpose or for croquettes. The brown crust formed by the frying in oil makes the vegetable not only ornamental, but more acceptable to the palate, than when it is made rich with butter. The potato does not soak fat, and much less oil is required than one would suppose. Breaking through the thin crust, the potato has steaming heat and all the quality of the baked vegetable, and more.

Kitchen Kinks.

If carrots are cut in slices instead of cubes they are more nutritious, as the outside part, which is the darkest, is also the richest.

If lamp chimneys are polished with salt after wiping they will give forth a brilliant gloss and are less liable to crack.

Rusty looking silk may be freshened if sponged in the water in which potatoes have been boiled.

When no eggs are used in a recipe use two level teaspoonsful of baking powder to each cup of flour.

In making an omelet a tablespoonful of water or milk should be allowed for each egg.

Beef Stew.

Cut into small pieces two pounds of any of the cheaper cuts of beef. Add one small yellow turnip, one carrot, one large onion and half a dozen good sized potatoes, a little salt and about a quart of cold water. The onion should be sliced and the other vegetables diced. Place the meat in the bottom of the kettle and cover with the vegetables. Pour the water over all and cover closely. When it is boiling briskly set it back where it will simmer for a couple of hours.

Left Over Cereals.

Left over cereal may be used in either of two ways. Mixed with some chopped meat, seasoned well, it is always tasty in croquettes. An excellent dessert may be made of the cooked cereal, sweetened, seasoned with spice and then mixed with chopped raisins. Then it should be molded into cones and browned in the oven. Serve with syrup or thick cream.

Renovating Velvet.

When steaming velvet try the following method: Take an ordinary colander. Place this upside down over a basin partly filled with boiling water. Then cover the whole with a thick cloth, place over the gas burner and turn the gas just high enough to keep the water boiling steadily.

Chocolate Bread Pudding.

Crumb three slices of bread and soak fifteen minutes in one pint of milk, add one egg, one-half cupful sugar, one-fourth teaspoonful salt, small piece of butter, teaspoonful of vanilla and one square of melted chocolate. Bake half an hour in a moderately hot oven and serve with whipped cream.

Cleaning Coat Collars.

To renew shabby coat collars take a raw potato, peel it and grate it into a basin. Pour half a pint of cold water over it, and let it stand until it has settled. Then take a piece of clean flannel, dip it into the clear liquid and rub the collar well.

Unduly Suspicious Men.

"Some men," said Uncle Eben, "has been forced to go so suspicious that if you tries to be plain honest wif 'em, dey thinks you has managed to hit on some new kind of a trick."

The KITCHEN CUPBOARD

HOW TO COOK FISH.

SOME ways of cooking fish, applicable to almost any variety of it, are given here. In selecting fish for the table be sure that it is fresh and in cooking avoid having it too dry or burned.

For the Lenten Breakfast.

Fish Cakes.—Take half a pound of cooked fish, half a pound of mashed potatoes, one egg, a teaspoonful of chopped parsley and breadcrumbs. Pound the fish and mash the potatoes, mix these together and season with salt and pepper. Add the chopped parsley and half the egg. Form this mixture into round, flat cakes, using a little flour on the board and hands to prevent sticking. Egg each cake and roll in crumbs. Fry and serve in a pile on a paper doily garnished with parsley.

Fish Souffle.—Take two tablespoonfuls of butter, put in a saucepan and melt without browning. Add one tablespoonful of flour, stir until blended, then pour in one cupful of warm milk. When thickened and smooth add the yolk of one egg, one cupful of flaked fish, a tablespoonful of cream, a tiny bit of essence of anchovy if desired and pepper to season. Mix carefully and well, fold in the white of one egg beaten stiff and dry. Then fill ramekins three-quarters full. Brown in a quick oven and serve very hot.

Baked Until Brown.

Fish Omelet.—Take four eggs, four tablespoonfuls milk, one cupful of any cooked fish flaked and seasoned. Beat whites and yolks of eggs separately. Season each slightly with salt and pepper. Mix milk and one spoonful of beaten whites with the beaten yolks and pour the mixture into the under half of a "round loaf" bread pan, previously heated and containing a teaspoonful of melted butter. Sprinkle fish through the center lengthwise and cover with the remaining beaten whites; put on in spoonfuls without smoothing over. Bake in oven until set and delicately browned.

Baked Fish and Tomatoes.—Remove the fillets from any white fish, dredge them with salt and pepper and lay them in a baking pan, one on top of the other. Put two tablespoonfuls of butter into the pan with the fish and set it in the oven. When the butter is melted add this mixture to the fish: To one-half can of tomatoes add one teaspoonful of salt, one slice of onion, one-half teaspoonful of thyme, one "dry" leaf, one-quarter teaspoonful of pepper, three cloves. When this sauce has been poured over the fish set pan back in the oven and leave until the fish is cooked.

REPEAL DEMAND GROWS INSISTENT

Public Bodies and Business
Clubs Act to Kill Full
Crew Laws.

Philadelphia, Pa. Public support of the proposition for repeal of the Full Crew—"excess man crew"—Laws is rolling up to great proportions. Action has been taken by boards of trade, chambers of commerce, manufacturers' and industrial clubs, city councils and business men's associations in both New Jersey and Pennsylvania.

In Pennsylvania resolutions for repeal have been adopted by such as the Philadelphia Bourse, the Pittsburgh Chamber of Commerce, the Commercial Club of that city, which has a membership of 1100; the Philadelphia Milk Exchange and by farmers' organizations of Union county and other parts of the state. Indicating the unanimous character of such action, it may be stated that the Media Civic Association voted 213 to 1, and that a referendum vote on the proposition being taken by the Williamsport Board of Trade has so far resulted 155 to 6 in favor of repeal.

In New Jersey very emphatic action has been taken for repeal of the law in that state by resolutions passed by boards of trade and chambers of commerce in such chief cities as Newark, Paterson, Passaic, Jersey City and Trenton.

These various business organizations of the two states are also working through their members to impress upon the legislatures the general public demand for repeal of laws which have resulted in no good, but on the contrary have put unnecessary burdens upon the people.

The above article is furnished by the railroads in their efforts for the repeal of the Full Crew Bill.

Quiet Shoes.

To make nice sick-room shoes in which you can step about softly, out from old felt hats sole and heel pieces. Glue these on and you have a quieter shoe than those sold as nurses' shoes. The patten of little feet, so hard on some people's nerves, is easily deadened by the same method, also helping to keep the little feet warm when playing on a cold floor.

Medical Advertising NO HEADACHE OR NEURALGIA PAIN

Get a 10 cent package of Dr. James' Headache Powders and don't suffer.

When your head aches you simply must have relief or you will go wild. It's needless to suffer when you can take a remedy like Dr. James' Headache Powders and relieve the pain and neuralgia at once. Send someone to the drug store now for a dime package of Dr. James' Headache Powders. Don't suffer! In a few moments you will feel fine—headache gone—no more neuralgia pain.

Did Service to Humanity.

Captain Hutchinson, the dockmaster at Liverpool, is credited with having originated the reflecting lighthouse in 1763, and another great improvement in the invention of a light for light-houses was made by Lieutenant Drummond, who was the first to suggest the using of oxyhydrogen light. Today there is no danger rock or point along any of the navigable coasts but has its modern lighthouse.

Secret of True Industry.

How profitable it is for every one of us to be reminded, as we are reminded when we make ourselves aware of the derivation of diligence from "diligence," to love, that the only secret of true industry is love of that work!—R. C. Trench.

Good Word for the Mule.

"Some men," said Uncle Eben, "put in deir lives kickin' at nothin'. Dar's dis much to be said for de mule. If he's interested enough to kick, he's willin' to go to de trouble of takin' aim."

"The Thinkers of the
Country Are the
Tobacco Chewers"—

said one of the greatest thinkers
this country ever produced.

Says the Judge:

"My brain grasps the points of a case more easily when I'm chewing PICNIC TWIST. I suppose it's because of the gentle stimulation that PICNIC TWIST gives without the after effects of "strong" tobacco.

"Have you ever noticed how many great jurists chew? Well, there's nothing better to oil the wheels of justice than PICNIC TWIST."

Have you ever wished for a tobacco that you could keep on chewing without feeling that you were over-chewing?

For a long time you've really been looking for PICNIC TWIST, with its lasting sweet taste, and true tobacco satisfaction with no "come-back."

Compare PICNIC TWIST in taste, looks, convenience or any other way, with any dark "heavy" tobacco. Then you'll know the advantage of chewing the light, mild, mellow part of the leaf, the only kind that goes into PICNIC TWIST.

There are few better preservatives of the teeth than PICNIC TWIST.

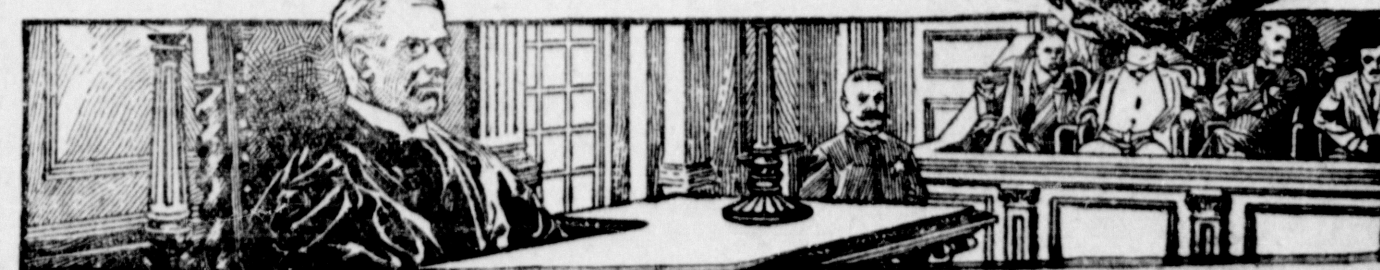

Pic Nic Twist

CHEWING TOBACCO

"The Thinkers of the Country Are the Tobacco Chewers"

ON FRIDAY, MARCH 12, 1915.

2 U.S. WARSHIPS SENT TO MEXICO

Battleship and Cruiser Ordered
to Vera Cruz.

DEPREDACTIONS ARE FEARED

General Obregon, Carranza Leader,
Takes Troops From Mexico City
and Leaves Capital to Fate.

Washington, March 10.—The Mexican situation has taken on a more serious aspect than at any time since the landing of United States forces at Vera Cruz last April.

After a conference at the White House between President Wilson and Secretary Daniels, two more warships were ordered to Vera Cruz from Guantanamo, Cuba, to join the vessels now stationed at that port.

Immediately after the announcement of the dispatch of the armored cruiser Washington and the battleship Georgia, under command of Rear Admiral Caperton, to Vera Cruz, a communication was received from American Consul Silliman, in Vera Cruz, which further alarmed the government officials.

Consul Silliman telegraphed that the Carranzista forces, under command of General Obregon, began the evacuation of Mexico City.

For several days the state department has been making vigorous representations to Carranza, urging him not to evacuate the Mexican capital. The reason for the request was that General Obregon had stirred the poorer classes of the capital with incendiary mandates, and the state department anticipated rioting and looting if Obregon should leave the city to take care of itself.

Zapata's bandits are reported to be on the outskirts of Mexico City, and it is feared that they will wage a campaign of depredations in the capital such as the unfortunate republic never has experienced.

The Villa agency announced that a telegram had been received stating that Zapata forces occupied Mexico City and had begun repairing the railroad northward.

Communication with the border would be restored in six days, the message said.

It is also reported that the United States armored cruiser Des Moines, ordered from Progresso to Vera Cruz, had been ordered to return to Progresso, where serious disturbances have arisen because of Carranza's export embargo.

President Wilson, describing the latest American representations, said Carranza had been called upon by the United States to take the necessary steps to protect foreigners in Mexico City and had been informed what the Washington government had heard of conditions there and how serious they seemed to be.

When asked whether the United States had any new intentions in Mexico, the president reiterated that the government had represented its views on what appeared to be the situation in Mexico City. He added that in all such situations it was necessary to discount reports a great deal, because, he said, certain persons would like to have the United States intervene in Mexico, even if they had to manufacture the facts on which to base the demand for intervention.

When the president was asked if the latest note to Carranza was an ultimatum, he replied that the administration did not issue ultimatums, but expressed its views and acted accordingly.

BRITAIN TO SEIZE FACTORIES

Commons Passes Drastic Amendment to Realm Defense Act.

London, March 10.—A most drastic amendment to the defense of the realm act was unexpectedly presented to the house of commons by Chancellor of the Exchequer David Lloyd George.

He proposed that the government be empowered to commandeer all factories required for war purposes. The measure was promptly passed in all its stages.

Up to the present time firms and factories already producing war material could be taken under government control. The amending bill proposed by the chancellor extends this power to cover all other concerns which the government may wish to utilize for this purpose.

Dynamite Fumes Kill Miner.

Hazleton, Pa., March 10.—Alonso Vincento, a miner on the night shift at the Lattimer mine, was found dead and four others unconscious in the gangway. The four will recover. Dynamite used in firing a blast failed to explode and burned instead, the fumes overcoming the workers.

Child Dies, Man Kills Himself.
Reading, Pa., March 10.—Despondent ever since the death of his infant child three months ago, Raymond Lutz, aged twenty-two years, committed suicide by inhaling illuminating gas at his home in this city.

14 Killed in Antwerp Explosion.
Amsterdam, March 10.—Fourteen persons were killed and seventy were wounded by an explosion in the arsenal at Antwerp. Most of the dead and injured are Germans.

I Will be in GETTYSBURG
Every TUESDAY,
At Pen. Myers' Jewelry Store
To Examine Eyes and Fit Glasses.

NEW BATTLE BEGUN ALONG EAST FRONT

Germans and Russians Locked
in Pilica River District.

Petrograd, March 10.—Two great German and Russian armies are locked in the grip of battle in the Pilica region, south of the Vistula river, in Poland, where the forces of Grand Duke Nicholas are striving to dislodge the soldiers of Field Marshal von Hindenburg.

A German offensive in that region having failed, the Germans retired to a strong position along a series of heights, and the Russians are now shelling these positions with the utmost vigor, preparatory to an attempt to carry them with the bayonet. A big battle is developing there along a seven mile front.

But in the meantime heavy fighting is in progress south of the East Prussian border, near Lomza, Plock and Przasnysz. The Russians are maintaining a strong offensive all along this line from Augustowo, down along the Bobr and Narew rivers, to a point south of Plock.

It was with the intention of lessening Russian pressure in this region that the Germans attacked so vigorously south of the Vistula. With the German efforts in the region of the Pilica a failure, the situation between Plock and Augustowo is now serious for the invaders. It is now believed that the Russians will be able to start a march into East Prussia within the next ten days. The German bombardment of Ossowiec has been without effect. Russian sorties, coupled with efficient fire of the guns of the Russian forts, caused great losses to the Germans.

REJECTS LARGE WAR ORDERS

Sharon Concern Refuses Shell Contracts Worth Millions.

Sharon, Pa., March 10.—John Stevenson, Jr., president of an ammunition manufacturing company of this city, said that the concern has just turned down orders for millions of dollars' worth of war munitions during the last two months.

"Agents of the Russian, French and British governments have for months past been trying to get us to manufacture shells for them," said Mr. Stevenson, "but just as persistently as they come the orders are all rejected."

"Our corporation will take no part in this bloody business."

OPIUM ON BRITISH SHIP

\$2000 Worth Found In Chinese Sailor's Bunk In Jersey Harbor.

Camden, N. J., March 10.—Lumps of crude opium valued at \$2000 were found in the bunk of a Chinese sailor on the British steamship Silvercedar, which arrived in Camden from a port in Persia.

The vessel is loaded with licorice consigned to the McAndrews & Forbes company. The entire crew of twenty-three were arrested and the federal authorities have the case in charge.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray,
Faded Hair Dark and
Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, bring back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautiful dark-thick and glossy and you look years younger.

The Goodrich Tire, like the trained athlete is all brawn and muscle--no fat

THE old Olympic Game promoters were great for what we call "form."

Symmetry, proportion, soundness and proper balance out-bid bulging muscles for favor--yes, and out-won, too, just as they will today.

Mere bulk never was synonymous with endurance--and the truth of this statement drives home with a bang, when you apply it to tires.

IF thick, heavy tires were the last word in tire construction, we could wipe out of existence a Goodrich Research and Test Department employing seventy people. We would take off the road a battalion of ten automobiles, that run twenty-four hours a day and every day in the year, grinding tires of all makes to pieces, just for the sake of information to us and eventual economy to the user of Goodrich Tires.

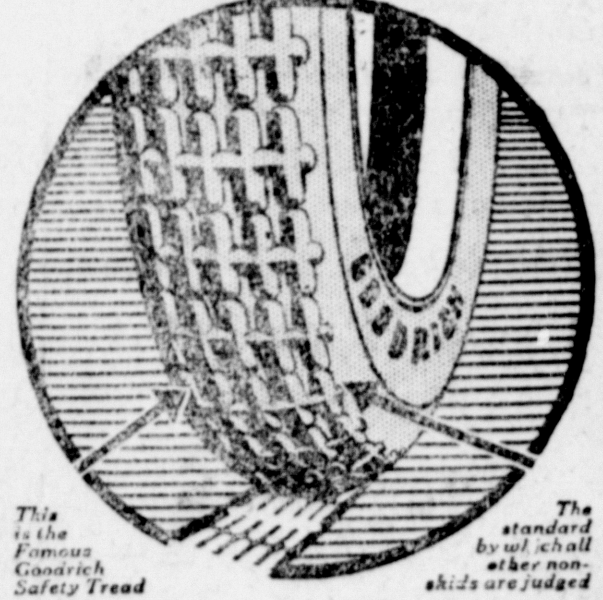

There is where we learn to cut out of a tire the material which gets the user nothing.

Of course, when we stripped tire price lists of their padding--fictitious values--we expected rivals to say we had stripped our tires.

Note the following table of comparative prices on non-skid tires. Columns headed "A," "B," "C" and "D" represent four highly-advertised tires:

Size	Goodrich Safety Tread	OTHER MAKES			
		"A"	"B"	"C"	"D"
30x3	9.45	10.55	10.95	16.35	18.10
30x3 1/2	12.25	13.35	14.20	21.70	23.60
32x3 1/2	14.00	15.40	16.30	22.95	25.30
34x4	20.35	22.30	23.80	31.15	33.55
36x4 1/2	28.70	32.15	32.60	41.85	41.40
37x5	33.90	39.80	41.80	49.85	52.05

If you are charged less for any other make than Goodrich, they are taking it out of the tire; if you are charged more, they are taking it out of you.

This is the Famous Goodrich Safety Tread
The standard by which all other non-skid tires are judged

G. W. WEAVER & SON

Saved on the Gallows

By LOUISE B. CUMMINGS

Famous in English history is that Duke of Gloucester who murdered his two nephews in the Tower of London, one of whom was the rightful heir to the throne, and made himself king of England in the prince's stead.

At that time there lived in England Robert Percy, a young man of the most admirable qualities. It was some time before the secret of the murder of the young prince began to leak out, and when it did there were low mutterings on the part of the people. Percy, who was familiar with the king's treachery, was more long spoken than others, and Richard, aware of the young man's influence with the masses and fearing that he would bring about a revolt, ordered his arrest on a charge of high treason.

On the day that Percy was conducted along a street leading to the Tower, surrounded by men at arms, the curbs were lined with sympathizers, who breathed prayers that he might escape the danger threatening him and muttered maledictions on the head of the tyrant.

At an upper window stood Lady Gwendolen Bickford, a younger daughter of the Earl of Charenton. She looked down on young Percy, walking erect between his guards, his bearing indicating that he was ready and willing to lay down his life in contending against crime. Every one believed that he was going to his death. His manly beauty, his noble bearing and the crown of martyrdom rendered him an object of pity to all. But to Lady Gwendolen he was more than this. Within those few minutes during which he was passing her heart left her bosom and settled upon him. Percy, happening to look in her direction, saw the love-light in her eyes, and his soul was lightened.

Richard, fearing to order Percy to execution without a trial, lest it excite the people to revolt, directed attorneys to prepare a case against him. Persons were bribed to swear that he had been heard advocating the king's assassination and placing the Duke of Richmond on the throne. Lady Gwendolen, hearing of this, begged her father to induce lawyers to defend the accused. The earl not only knew that the case was hopeless, but did not dare to oppose the king; consequently he refused to have anything to do with it.

One day Lady Gwendolen went to that quarter of London given over to lawyers and found Roger Moore, an old attorney who had served her father, and consulted him as to what might be done to save young Percy. After listening to what the girl had to say he replied that Percy's case was hopeless because the king had decreed that he should die. "He will surely be convicted," said the old man. "After his conviction there is but one way by which he may legally escape the gallows. But should he go free under this statute the king would doubtless find some other way to get rid of him."

Lady Gwendolen asked the attorney to what law he referred, and he replied that it was a decree of King Edward IV., naming a condition on which a man about to be hanged should go free. As soon as the girl heard the condition her face lighted with hope. To fulfill it was possible, but would it avail in the end?

Percy was convicted of high treason against the king and sentenced to be hanged and quartered on a certain date. At the time an army was gathering under the Duke of Richmond to depose the king, and Richard was gathering his forces to meet it. There had been a former attempt to put the duke on the throne in the king's place, but Richard was as bold and energetic as he was wicked and had defeated all attempts against his authority.

There was no one he feared to leave in his rear so much as Robert Percy, and when he had made all preparations to march against his opponents he delayed a day to make sure that this dangerous enemy was dead.

The day before the one set for the execution Lady Gwendolen Bickford was closeted with Roger Moore, and on the following morning, when the crowd went to Tyburn to witness the hanging, these two were of the number, and when the prisoner arrived they occupied seats near the scaffold. When all was ready and the condemned man was about to be swung off Roger Moore arose and said:

"Mr. Sheriff, as counsel for the prisoner I claim his body under an edict of King Edward IV., who decreed that whenever a man is convicted of crime and is about to be hanged, if there be a woman willing to marry him, he shall go free. This woman beside me is willing and ready to marry the prisoner."

This speech naturally disconcerted the sheriff, who had never heard of the statute. The judge who had convicted the prisoner was present at the hanging, and the matter was referred to him. He at once confirmed Roger Moore's statement, whereupon Percy was unbound, the black cap taken from his head, and he looked down upon the upturned face of Lady Gwendolen Bickford.

The king waited till the hour for the execution, then, supposing Percy to be dead, galloped off to Bosworth field, where a few days later he was defeated and killed. Robert Percy was in Richmond's army, and Richmond becoming king ennobled him, thus giving him equal rank with the girl who had saved his life by marrying him.

First Folding Pocket Knives.

Pocket knives with blades to fold into the handle by a spring, were first made in the middle of the eighteenth century.
